🎯 Introduction

What is the Payroll Digitalization System?

The Payroll Digitalization System is a modern web application for employee management and payroll processing. It replaces traditional desktop applications with a web-based solution.

Key Features

- **Employee Management:** Complete CRUD operations for master data
- **Payroll Processing:** Calculation and salary management
- **Secure Authentication:** Login with JWT and password recovery
- **Import/Export:** Integration with Excel and other formats
- **Carry Over:** Transfer of amounts between periods
- **FTE Management:** Control of full-time equivalent percentages

System Architecture

- **Frontend:** Next.js 16 with TypeScript and Tailwind CSS
- **Backend:** Python Flask with MySQL
- **Database:** MySQL with optimized tables
- **API:** RESTful with JWT authentication

🚀 Getting Started

System Requirements

Supported Browsers

- **Chrome:** Version 90 or higher
- **Firefox:** Version 88 or higher
- **Safari:** Version 14 or higher
- **Edge:** Version 90 or higher

System Access

1. **Main URL:** Access the web application
2. **Login:** Enter credentials
3. **Dashboard:** Access the main panel

Main Page

The main page shows three main modules:

- 👥 **Employee Management:** Master data administration
- 💰 **Payroll Processing:** Salary management
- 📊 **Reports and Export:** Analysis tools

🔐 Authentication and Security

Login

Authentication Process

1. **Credentials:** Username and password
2. **Validation:** Database verification
3. **JWT Token:** Session token generation
4. **Access:** Dashboard redirection

Password Recovery

Recovery Flow

1. **Request:** "Forgot Password?"
2. **Email:** Send recovery link
3. **Validation:** Verify token (24 hours valid)
4. **Update:** Set new password

Password Requirements

- **Minimum Length:** 8 characters
- **Complexity:** Uppercase, lowercase, numbers, special characters
- **Security:** No reuse of previous passwords

👥 Employee Management

Employee Overview

Employee Table

The interface shows a table with:

- **Employee ID:** Unique identifier
- **Name:** Full employee name
- **CECO:** Cost center
- **Category:** "Techniker" or "Office"
- **Active:** Employee status
- **Hire Date:** Contract start date

Available Functions

- **Search:** By name, last name, CECO
- **Filters:** By category, active status
- **Sorting:** By ID, name, date
- **Pagination:** Navigate through results

Create New Employee

Creation Form

Required Fields: - Name and Last Name - CECO (Cost Center) - Category (Techniker/Office) - DNI

Optional Fields: - Hire Date - Declaration - Active Status

Process: 1. **Personal Data:** Complete basic information 2. **Work Data:** CECO, category, hire date 3. **Validation:** System checks required data 4. **Creation:** Save to database

Edit Employee

Data Modification

Editable Fields: - Name and Last Name - CECO - Category - Status (Active/Inactive) - Hire Date - Declaration - DNI

Restrictions: - Employee ID not modifiable - Format validations applied

Delete Employee

Deletion Process

- **Confirmation:** Confirmation dialog
- **Logical Deletion:** Mark as inactive
- **Integrity:** Maintain historical data

Employee Categories

Techniker

- Technical specialized staff
- Access to technical functions
- Specific configuration

Office

- Administrative staff
- Access to office functions
- Administrative configuration

💳 Salary Management

Salary Information

Salary Structure

Main Data: - **Year:** Payroll period - **Modality:** 12 or 14 payments - **Annual Gross Salary:** Taxable base - **Seniority:** Seniority allowance - **Other Concepts:** Additional allowances

Yearly Management

- **Creation:** Set annual salary
- **Update:** Modify salary data
- **Deletion:** Remove salary record

FTE (Full-Time Equivalent)

Percentage Management

Functionality: - **Percentage:** Part-time/full-time (0-100%) - **Period:** Management by year and month - **Update:** Modify percentages - **Calculation:** Automatic application in payroll

Operations

- **Query:** View FTE by period
- **Update:** Modify percentage
- **Deletion:** Remove FTE record

Einkünfte (Income)

Income Management

Income Types: - **Gross Income:** Monthly income - **Earned:** Earned concepts - **Allowances:** Additional payments

Period Operations

- **Annual:** Annual income configuration
- **Monthly:** Monthly details
- **Update:** Modify amounts

Deductions

Deduction Management

Deduction Types: - **Social Security:** Mandatory contributions - **IRPF:** Tax withholdings - **Others:** Specific deductions

Operations

- **Configuration:** Set percentages
- **Update:** Modify deductions
- **Calculation:** Automatic application

📊 Import and Export

Data Import

Hours and Per Diems

Functionality: - **Excel File:** Upload file with hours/per diems - **Validation:** Format verification - **Processing:** Automatic import - **Confirmation:** Import results

Gasoline Import

- **Excel File:** Load gasoline expenses
- **Validation:** Check structure
- **Processing:** Import data
- **Report:** Operation results

Coupon Specification

- **Import:** Load specific coupons
- **Validation:** Verify data
- **Processing:** Integrate into system

Data Export

Excel Export

Export Types: - **Annual:** All year data - **Monthly:** Specific month data - **Per Employee:** Individual data

Available Formats: - **Excel:** .xlsx format with formulas - **IRPF:** Tax report - **Payroll Entry:** Accounting format

Export Process

1. **Selection:** Choose period and type
2. **Generation:** Create file
3. **Download:** Download generated file
4. **Confirmation:** Verify export

⚙️ Advanced Functions

Carry Over

Amount Transfer

Concept: - **Source:** Source period (year/month) - **Destination:** Application period - **Concept:** Amount type - **Amount:** Amount to transfer

Operations

- **Creation:** New carry over
- **Query:** View existing carry overs
- **Deletion:** Remove carry over
- **Application:** Apply in payroll

Edit History

Change Tracking

Functionality: - **Log:** All data changes - **Timestamp:** Modification date and time - **User:** Who made the change - **Field:** Modified field

History Query

- **Per Employee:** Individual history
- **Global:** All changes

- **Dates:** Filter by period

Salary Copy Manager

Salary Copy

Functionality: - **Source:** Base year salary - **Destination:** Target year - **Adjustments:** Percentage modifications - **Validation:** Data verification

---

❓ Frequently Asked Questions

Access Questions

Q: What should I do if I forgot my password? A: Use the "Forgot Password" function and follow the email instructions.

Q: Can I access from multiple devices? A: Yes, but only one active session per user.

Q: Why does my session expire? A: For security, sessions have an inactivity time limit.

Employee Questions

Q: Can I change an employee ID? A: No, the ID is unique and not modifiable to maintain data integrity.

Q: What does the "Techniker" category mean? A: It's technical staff with access to specialized functions.

Q: How is FTE calculated? A: It's the percentage of full-time, affecting proportional calculations.

Salary Questions

Q: What's the difference between 12 and 14 payments? A: 12 payments are regular monthly, 14 include additional payments.

Q: Can I modify previous year salaries? A: Yes, with appropriate permissions and system validation.

Q: How are deductions applied? A: Automatically according to percentage configuration and tables.

Import/Export Questions

Q: What format should import files have? A: Excel with specific structure according to data type.

Q: Can I export data from multiple employees at once? A: Yes, exports can be annual or monthly for all employees.

Q: What does the IRPF report include? A: Tax data needed for tax declaration.

Technical Questions

Q: Do I need to install any software? A: No, it's a web application accessible from browser.

Q: Which browsers are compatible? A: Chrome, Firefox, Safari, Edge in recent versions.

Q: Are my data secure? A: Yes, with SSL encryption and JWT authentication.

Technical Support

Contact

System Administrator: - Direct Contact: System administrator for support requests
